

# MAILGUARD QUICK START

Install, open Outlook, and verify your first email in under two minutes.

## 1. Install MailGuard

### MAILGUARD SETUP

Download **MailGuardSetup.exe** from [guard.code13.ca/download](https://guard.code13.ca/download) and run the installer. Click **Finish** when you see Installation Complete.

Visit **[guard.code13.ca/download](https://guard.code13.ca/download)** on the computer where Outlook is installed.

## 2. Open Outlook

### OUTLOOK

Home

MailGuard

Open any email message. MailGuard appears on the Outlook ribbon after install.

Restart Outlook if MailGuard does not appear immediately.

## 3. Click MailGuard

### MAILGUARD

**Trusted**

This email passed MailGuard verification. Continue normally.

Select an email, then click **MailGuard** on the ribbon to see the trust verdict.

## 4. Sign in

### MAILGUARD

Email

Password

Use the administrator email and password from your MailGuard account at [guard.code13.ca](https://guard.code13.ca).
